HENRY C. MINTER.

For Public Administrator,  
CHARLES J. VIA.

For Coroner,  
JAMES M. STAPLES.

Judge Western District,  
JOSEPH M. MARSH.

Judge Eastern District,  
JAMES L. STACY.

Call for the Senatorial Convention.

It is ordered by the Democratic central committee, for the 6th senatorial district, that the senatorial convention meet at Linneus, Mo., on Thursday, September 5, 1878, for the purpose of nominating a Democratic candidate for the state senate, at the ensuing election. The basis of representation will be as follows: One delegate for every 500 votes cast for Tilden, at the general election in 1876, and one delegate for every fraction in excess of 500 votes.

By order of the Democratic central committee.

I. H. KINLEY, Chair'n.  
W. H. GARNETT, Sec'y.

CALL-TENTH CONGRESSIONAL DIST.

At a meeting of the executive committee, held at Chillicothe, on the 16th day of May, 1878, it was resolved that the Democratic convention for the 10th congressional district of Missouri be held at Chillicothe, Livingston county, on Wednesday, the 21st day of August, 1878, at ten o'clock a. m., for the purpose of nominating a candidate for congress from said district, and the transaction of such other business as may come before the convention.

The basis of representation will give the respective counties in the district the number of delegates named below:

Randolph county, delegates.....	14
Chariton.....	13
Linn.....	8
Sullivan.....	6
Livingston.....	8
Davies.....	7
Harrison.....	6
Mercer.....	4
Grundy.....	4

Total number of Delegates.....70

A. M. DOCKERY, Ch'n.  
T. E. BRAUNER, Sec'y.

State Democratic Platform

The Democratic party of the state of Missouri, in convention assembled, declares its confidence in and unshaken adherence to the great principles of Democratic representative government, its devotion to national Union and constitution, with the amendments thereto, its unswerving maintenance to the following principles, namely: Strict subordination of the military to the civil power; opposition to large standing armies in time of peace; purity of the elections, and their absolute freedom from all interference by officers of the Federal government civil or military; profound respect for the popular will fairly and legally expressed at the ballot-box; a fixed purpose to expose and punish all political equality of citizens; the largest right of individual liberty consistent with the rights of others; universal education and the general and active participation by the body of the people in public affairs. We congratulate the country on the fact that, after nearly thirteen years from the cessation of hostilities, a state of peace in accordance with the constitution and laws has been reached in our southern states.

Second—We solemnly arraign and condemn the high electoral commission as faithless to the people of the United States in refusing to investigate and expose the wicked and glaring frauds by which the will of the people at the last presidential election was defeated; its refusal to do so, was in violation of the spirit of the law under which it was organized, and while the decision made by congress of the question as to who should be declared president of the United States for the present presidential term was, in our judgment, final, that decision ought not to preclude a full investigation and exposure of all frauds connected with that election, and the due accountability of all who were guilty concerned with them, and we heartily commend the action of the majority of the house of Representatives in pursuing the investigation.

Third—We regard the national banking system as a disgraceful and dishonest scheme to monopolize the currency and to oppress the people of the United States.

of, and quantities from time to time sufficient to supply the business demands of the country, and all greenbacks so issued shall be used in the purchase and redemption of U. S. bonds, so that the interest debt of the country may be lessened to the extent of the greenbacks thus put in circulation. Legal tender notes, commonly called greenbacks, should be made legal tender in the payment of all debts, public and private, except such obligations as are, in the terms of the original contract, expressly made payable in coin.

Fourth—That the right to coin money and regulate the value thereof can be exercised under constitution alone and that possession of the power imposes the duty of its exercise to extend to all gold and silver bullion offered for coinage at mints in the United States, and we regard the limitations and restrictions imposed by congress upon the exercise of silver as impolitic and unjust and should at once be removed.

Fifth—That a return to specie payments is impossible in the present financial condition of the country and we demand the immediate and unconditional repeal of the act of congress, January 1, 1875, known as the resumption act, holding the same to be unwise and ruinous to the interest of the people.

Sixth—The policy inaugurated and maintained by the Republican party of contracting the active circulating medium of the country, constituting, as all admit it does, the standard of value of property and products of the country, and regulating, as well, the prices paid for all labor, stands prominent in a list of its oppressive measures, as the most stupid, inexcusable and oppressive of them all. Being opposed to all monopolies, and all laws discriminating in favor of one class of our people at the expense of and to the prejudice of all others, we declare an unqualified hostility to all protective tariffs, and demand that there shall be a tariff for revenue only.

Seventh—The Democratic party tenders to the debtor and the laboring classes of the country its warmest sympathy, and pledges itself at the earliest moment to reverse the cruel and destructive policy of the Republican party, which brought ruin upon them. We demand that all new legislation shall be so enacted administered as to secure to each man as practicable the just reward of his own labor.

Eighth—That in view of the large number of appropriations that have been made by the Federal government for works of public improvement on the seaboard and lakes, justice to the people of the Mississippi Valley demands that appropriations shall be made for the improvement of the Mississippi river and its tributaries commensurate with the commercial interests of this section of the country, and believing in the constitutional power of the government to aid in the construction of national enterprises which serve to benefit large sections of country, and which cannot be accomplished by individual enterprise or state action, we favor such legislation in this behalf as will not increase the national indebtedness or impose any additional burdens on the people. Such a policy, in our opinion, while it would lighten the cost of transportation and add to our agricultural wealth, would afford remunerative employment to the surplus labor of the country.

Ninth—That there can be no legitimate employment of organized forces in this country except to execute law and maintain the public peace; that reform must be made in national, state and municipal governments by the reduction of the expenditures of taxes; the dismissal of unnecessary and incompetent officers and employees, and the strict enforcement of official responsibility.

Tenth—In the language of Indiana Democrats, that the jurisdiction claimed and exercised by the circuit court of the United States over questions of corporate and individual rights, arising under the laws of the states, tends to oppress and burden litigants to such an extent as to amount to a practical denial of justice in many cases, and we consider the legislation which has conferred such jurisdiction as unwise and harmful to the true interests of the people, and we demand such legislation as will restrict and limit the jurisdiction of such courts to such matters as are clearly contemplated by the constitution and expressed in the judiciary act of 1876.

Eleventh—We favor and invite emigration from all sections of the country.

A SPECIAL TO THE ST. LOUIS REPUBLICAN, dated Kansas City, August 13th, says: "The boldest train robbery on record was committed this morning on the Council Bluffs road, near Stonington. Conductor Brown, one of the oldest men on the road, met the robbers on the platform of the baggage and express car as he was starting to go through the train. It was about 2 o'clock. They leveled revolvers at his head and compelled him to open the door to the express car and allow them to enter. The messenger and baggage men, there being two besides the conductor in the car, supposed they were friends of Brown, and made no resistance. Once inside, and while the cars were in motion, the robbers directed their weapons at the boys, and getting the drop on them forced them quietly to open the express safe and hand out the contents, \$6,000 in currency. One of the gang put the package in his pocket, and then they ordered the conductor to pull the bell-ropes, the train pulled up in a dense wood, where the robbers alighted and speedily disappeared. No capture has been made, although every effort is being made. Recent reports indicate the presence in our midst of Jesse James, and it looks as if his fine Italian hand was here displayed. The robbery was done so quietly that the passengers did not know of it. There were four in the gang and they were armed."

JOHN OLDHAM has a fine reputation as a joker. No matter what comes up he is reminded of some anecdote with which he illustrates the funny side of the matter in question. After the election returns had been sufficiently footed up to show that John was among the defeated candidates, some one asked him what it reminded him of. He soon replied that he was like the boy who examined the show pictures thoroughly, and then paid full price for a ticket to the show. After going through the show he came out and pronounced the whole thing a swindle for, said the boy "they have not showed half their advertised." So with the voters they had not voted half so well as they pretended or he would have been elected.

THE TICKET.  
In this issue of our paper we place before our readers the ticket nominated at the primary election. Our acquaintance with most of the gentlemen nominated is necessarily very limited on account of the fact that we have been a citizen of Chariton county for a short time only, but we take the election through which they have just passed as a sufficient introduction, and hail them all as good men, and true, worthy of the honor conferred upon each and every one of them by the Democracy of Chariton county.

COL. R. H. MUSSEY was chosen as the standard bearer of the Chariton Democracy in the coming contest for congressional honors in the convention to be held at Chillicothe on the 21st of August. The honor conferred on Col. Mussey is exceedingly complimentary, receiving, as he has, such a decided expression of public favor over so honorable and able a competitor as Mr. J. C. Crawley. Both of these gentlemen have been long and favorably known to the people of Chariton county and the contest between their friends for the victory was a heated one, and in some respects unpleasant, but between Col. Mussey and Mr. Crawley the contest throughout was conducted in the most gentlemanly, courteous manner.

DR. D. H. HAMMONS, the nominee for representative, is a gentleman of culture and fine abilities. In the brief canvass just made he has won many friends and gained a victory of which any gentleman might well be proud, and when elected will make the people a good representative.

HARRY H. MANN, the nominee for circuit clerk, needs no words of commendation from us. The fact that he was permitted to receive the nomination without opposition is far better evidence of the appreciation which the people of Chariton county have for him than any words of praise we could speak for him. He was born and raised in Chariton and we all know him and endorse him.

F. T. DYSART, the nominee for the office of county clerk, has been retained in the position which he has filled for the past four years so creditably to himself and so satisfactorily to the people. All concede the fact that Mr. Dysart has made a faithful and excellent officer in the past, and that we regard as the best guarantee for his future conduct in the discharge of the important duties of that office.

B. B. DAVIS, the nominee for the office of sheriff, it may be said is the invincible, inevitable, untiring, everlastingly faithful friend and public servant of the people. "Old Burg," as he calls himself, is always on hand just in the nick of time. He has proved himself to be a good and faithful officer; hence the people retain him.

GEORGE B. OLDHAM, the nominee for the office of collector, has been before the public only a short time as an officer, but in that time he has shown himself to be competent, honest, faithful and diligent, and the honor conferred upon him in the nomination to one of the most respectable positions in the county is a very just compliment to his many good qualifications for the position.

J. M. HAMILTON, the nominee for the office of treasurer, is widely and favorably known throughout the county, having been twice elected to the office of public administrator for Chariton county. Mr. Hamilton has shown himself to be competent and faithful, and in every respect worthy of support.

T. J. L. HUTCHESON, the nominee for the office of assessor, is a substantial, reliable farmer, and is one of our best citizens, and will make a good officer.

H. C. MINTER, the nominee for the office of probate judge, is a lawyer, and has been a resident of the town of Salisbury for several years. At the opening of the canvass he was a comparative stranger to many people in the county, but he has made a brilliant canvass, and won a substantial victory, and will no doubt meet the expectations of his many friends in the faithful and efficient discharge of the duties of the important position to which he has been selected.

COL. C. W. BELL, has been retained in the office of prosecuting attorney. The fact that he received the nomination as it were by acclamation is a sufficient endorsement of his past official services, and the Colonel is too well known to the people of this county to require any words of commendation from us. He will no doubt be re-elected in November without opposition.

COUNTY JUDGES, Mr. J. B. Hyde, for county judge at large, J. L. Stacy, for judge of the eastern district, and Joseph M. Marsh for the western district, are the gentlemen selected to compose the county court. The selection of these gentlemen meets with universal approbation. They are all well qualified for the responsibilities which will be entrusted to them, and their election in November is a foregone conclusion.

CHARLES JORDAN VIA, though not generally known when announced as a candidate for public administrator, received the largest majority of any candidate who had any announced opposition. He is one of the most courteous, agreeable gentlemen in the state, and retains the warmest friendship of all who know him. He is a man of excellent business qualifications, and will make an honest, efficient officer.

JAMES M. STAPLES has been coroner for many years, and was nominated practically without opposition. It is true Dr. Wallace, of Brunswick, received a very complimentary vote at Brunswick, Dalton and Keytesville, he having been an-

nounced as a candidate by some of his friends, more as a joke than in seriousness. Dr. Wallace is a prominent physician at Brunswick and has a host of friends, and would probably not have served if elected. Mr. Staples is well known in this county as one of the most agreeable, competent, honest officers the county has ever had, and of course will be unanimously elected.

A good joke is told on one of the Keytesville candidates in regard to how he milked his cow one evening while the count of the election returns was going on. He went home in a great state of excitement, and his wife knowing that her only chance to get the cow milked was to send him out for that purpose while waiting for her support. Like a dutiful husband he gathered up his bucket and went for the old cow in great haste; he turned the cow and calf together; just then the thought struck him that while the calf was getting its share of the milk he would foot up a little on the latest returns. Down went his bucket and cup, out came his pencil and paper and the calculation commenced. Of course the good wife was as busy as a bee about her supper, and preparing her crocks and pans for the quantity of good milk she was expecting. (The old cow having missed one milking on account of the election excitement.) After the husband had been gone an unusual length of time, the wife went to summon him to supper. Imagine her disappointment if you can when she found her husband near the gate pencil and paper in hand perfectly oblivious to every thing about him, intently footing up those election returns, while the old cow and calf were leisurely grazing at the other side of the lot. One sharp call from his wife brought him to his senses; he made a dive at his bucket and cup and then looked for the cow and calf, but of course it was no use, nothing could be done but separate the cow and calf; then he was marched off to the house to the tune of "Hail Columbia, happy land." We don't know what would have become of the poor fellow if he had not been elected.

JOHN SHERMAN has just issued another call for the redemption of five millions of the 5-20 bonds. He has made a number of similar calls during the past few weeks, the whole object of which is to take up the 5-20s, which are payable in greenbacks, and issue in their stead coin bonds. All that is needed to make greenbacks a legal tender in payment of the 5-20s is the repeal of the pernicious act passed by the Republican congress in 1869 making them coin bonds. John Sherman knows the Democrats will repeal this law as soon as they come into power, which will be the 4th of next March, and pay these bonds off as they should be—in greenbacks. To prevent this and further perpetrate the swindle upon the people commenced years ago he is taking up greenback bonds and issuing coin bonds. It is estimated that there are about \$700,000,000 of these 5-20 bonds yet outstanding, and they should be paid in greenbacks at once.

The total exports (exclusive of specie), from the ports of New York from January 1, 1878, to August 6, amounted to \$203,296,650, and of imports to \$109,725,908, an excess of exports over imports of \$93,570,742. The exports of gold and silver coin and bullion, for the same period, were \$9,345,827, and imports \$14,157,079, an excess of imports over exports of \$4,805,252. The report of the movements of gold and silver somewhat upsets the sinister prophecies of the Eastern gold ring, which predicted that the remonetization of silver would result in driving gold from this country to Europe and other foreign countries, while the fact is the exports of coin and bullion for 1866, are nearly \$18,000,000 less than in 1877, and the imports have been over \$6,400,000 greater. Yet these false prophecies have much to say about "silver lunatics."—St. Louis Times.

STATE SENATOR. Hon. A. Mackay, of Keytesville, Chariton county, \* \* \* made an excellent speech at the court house Monday, and won many friends. He is an exceedingly affable and courteous gentleman, of fine learning and intelligence, and is so intimately identified and familiar with our interests that he would represent us well as our state senator. Should he receive the nomination we will support him heartily, and the people will vote for him cheerfully.—Linneus Bulletin.

THEY say that Bro. Ditzler has got in a good humor since the thing has been explained to him, but at first he could not see why a stranger would persist in making him stop on his way to preaching and listen to how he and Uncle Morehead stood on the question, nor could he see what difference it made to him if they both did live in Salisbury. But since he has learned that it was all about the election he is satisfied with the explanation and wishes the gentleman well.

At a special meeting of the State Board of Education, held in Jefferson City, Monday, the state treasurer produced the bonds held in his custody for the public school fund, also those held for the University, and upon being counted and registered by the board, they were found to be there, to the full amount deposited. Belonging to the former fund are 2,009, and the latter, 122, one thousand dollar bonds; total, \$2,131,000.

We are pleased to notice that arrangements have been made for Hons. Samuel T. Glover and George G. Vest to speak at Carrollton the 31st of this month. Both of these gentlemen are among the most prominent personages in the West, and are at present the leading candidates for U. S. Senator from this state. It is right that the people should see and hear them together.

THE public debt of the United States reached its highest figure in August, 1875, when it was, less bonds issued to the Pacific railroads and less cash in the Treasury, \$2,756,431,571.43, of which there bore interest \$2,381,530,204.96. The total public debt, less cash in the Treasury and bonds issued to Pacific railroads on July 1, 1878, was \$2,035,786,831.82, of which sum bearing interest was \$1,800,330,210.26.

A NEW fair association has been organized at Hannibal. The grounds formerly held by the N. E. Missouri Agricultural and Mechanical association have been secured. A new amphitheatre will be built on the site of the old one destroyed by fire some time ago, and active measures taken to make the exhibition attractive. The fair will commence Tuesday, October 1st, and continue five days.

NOTWITHSTANDING the hue and cry from one end of the country to the other, about the great depression in the iron business, the facts show that in 1860 the product of American pig iron was but 987,559 tons, while in 1876 it was 2,093,236, or more than twice as great as it was sixteen years previously, and the product of 1877 was 222,000 tons in excess of that of 1876.—St. Louis Times.

NEW YORK revenue officials, while cruising in the track of Cuban steamers, recently captured twelve large rubber boats filled with cigars, which were floating in the water and had been thrown overboard from some vessels. On being taken to the seizure room the sacks were found to have enclosed 375 boxes, containing in all 15,000 cigars, in addition to some 2,900 bundles of cigarettes.

THE boot and shoe manufacturers of Chicago held a meeting last Saturday and considered a proposition of the Chinese Six companies of California to furnish them 1,500 Chinamen, half skilled, and half green workmen, at 75 cents per day for three years in place of the 800 strikers. The plan was favorably regarded, but the general opinion was that 40 to 60 cents per day was enough.

HON. ERASTUS WELLS has published a card in the St. Louis papers declining to be a candidate for congress in the 2d district, stating that private business would not permit him to make a canvass. Mr. Wells made a good representative while in the XLIVth congress, but was defeated in 1876 by a Republican, on account of there being another Democratic candidate in the field.

GRANT has been taking lessons of Bismarck and the autocrats of the Old World how to deal with a people who, suffering from want and oppression, are inclined to be restive. He will not have an opportunity to apply his instructions here. The American people are not prepared for this. The rings might as well give up the hope of a restoration.—N. Y. Sen.

THE public administrator of Sacramento, Cal., has been arrested, charged with being implicated in the recent murder of the wealthy farmer, J. M. Tullis, of Grand Island. It is said strong circumstantial evidence exists of his guilt. The motive is alleged to be a desire to administer the estate of Tullis.

THE next morning after the election John Oldham went to take a last look at the growing crop on his farm near town before starting on the trip up Salt river. Soon after Krickbaum reported John seated on a stump near the familiar old song "Show pity, Lord; O, Lord forgive."

THE Palmyra Spectator thus states the situation in the 12th congressional district: "For John M. Glover, Scotland, Schuyler, Shelby, Clark and Lewis counties, 31 votes; for John F. Williams, Macon, Adair, and probably Putnam counties, 19 votes; for W. H. Hatch, Marion and Knox counties, 18 votes."

THE first annual fair of the Sullivan county Agricultural, Mechanical, and Stock Growing Association will be held at Milan, commencing September 18, continuing three days. The Sullivan Standard published the premium list last week, which contains some very handsome prizes.

A TELEGRAM from Springfield, Mo. says the wheat crop has mostly been stacked, and will average 15 to 20 bushels per acre, of the very best quality. The corn crop was never better, and the oldest citizens all join in saying it is better than ever before known.

A SAVING to the people of \$58,704,246 50 in four years is what the Democratic house has effected. If Democrats stand firm, after the 4th of March next both houses of congress will be Democratic, and then we will experience a still greater saving.

THE last that was seen of Judge John M. Duncan was away over beyond the Scroggabout Church in Randolph county, near the String Heel settlement. It is to be hoped he will get back in time to vote at the general election.

THE steamer Catherine sailed from Norfolk, Va., Monday, for Liverpool, with 300 fine leaves from West Virginia. The shipment was an experiment, and the result is looked forward to with great interest.

"THE Tall Cycamore of the Chariton" has just passed through another terrible gale, coming out considerably wind broken, but like the grand old tree of the forest is able and willing to "Cyc-en-some-more."

THREE hundred cases of yellow fever reported in New Orleans last week—sixty fatal.

THE nationals of the 12th district met at Edina to "nominate" a congressman last week, but as only Macon and a few other counties were represented the convention adjourned without action to meet in Kirksville.

PERSONAL preferences are in order before nominations are made, but as there are not enough county offices to supply everybody's favorite, personal preferences are out of date after the ticket is made.

JOHN SHAW, 16 years old, ran away from his parents in Covington, Ky., Tuesday, taking with him \$15,000 of his father's money. He was arrested a few days later in New York, when he "fessed up."

THOSE Carroll county boys say that Charlie Via gets away with all of them if he did, through mistake, take the Carrollton train. No use in talking, Uncle Morehead "ain't no where."

SMITH says he can't go up Salt river with the balance of the company now, for the reason that he has a business engagement with Osean which will detain him until the 1st of October.

LY Anderson, Indiana, two men stepped into the banking house of Crim & Co., and while the cashier was making change for one, the other abstracted \$5,000. Both escaped.

THE Salt river packet made a good trip the first of the week. Some of its passengers were not used to "sich" and "heaved Jonah" fearfully, but it is thought they will recover.

We understand the old settler still has that same old fiddle and is still coming "mit de hose back ridin'," playing that same old tune: "Who's been here since I've been gone?"

It is reported that Bro. Bowman gathered up his broad-axe and a pocket full of whetstones and started for the head waters of Salt river, on foot, the next day after the election.

THE ticket nominated by the primary Saturday is one of the best ever offered to the voters of Chariton county, and will be elected by a handsome majority in November.

THE Kansas City Times administers this sound advice: "Democrats must be careful that, in leaving the open sea of Democracy, they don't get among the 'breakers'."

THE last report we have from Judge Brummah had he tackled one old fellow down in Rascal Flat for a discussion as to what has become of the three Hebrew children.

W. F. STOREY, editor of the Chicago Times, returned last Saturday from his European trip of several months' duration, with greatly improved health.

SENATOR THURMAN will go to Raleigh, N. C., in October, to attend the next fair of the North Carolina Agricultural Society.

MRS. PRENTISS, wife of Rev. Dr. Prentiss, and author of "Stepping Heavenward," died Tuesday at Manchester, Vermont.

THE St. Louis Times says Senator Gordon, of Georgia, whose term expires next March, will certainly be re-elected.

THE subscriptions to the 4 per cent government bonds go steadily on, averaging from \$200,000 to \$500,000 daily.

GENERAL SHERMAN and Sunset Cox will tell the people what they know about farming at the New Jersey state fair.

EX-GOV. HENDRICKS and Mrs. Hendricks are visiting in New York.

Once Too Often You neglect a cold and the lurking consumption steals in and you are lost. So with many debilitated ladies who suffer from Nervousness and functional derangement, thoughtless of the fact that neglected weakness invites the same fell destroyer. Banish these afflictions one and all with Parker's Ginger Tonic, a matchless vitalizing agent and corrective that affords the most gratifying relief from Nervousness and Painful Periods, establishes the beautiful regularity of the female functions and prevents the development of Consumption in the feeble. The Aged and Infirm, the Weak and Convalescent, find it just the aid they need. It builds up and sustains the strength, diffuses warmth and energy through the system, banishes melancholy, and fortifies the powers of endurance. Buy from your druggists, Martin and Applegate, a \$1 bottle or a sample bottle at 15 cents and test its merits. eow-jas
